International Dark Sky Recognition
Antelope Island State Park, in Davis County, is one of a growing number of International Dark Sky Parks in Utah. Officially recognized by the International Dark-Sky Association for its “exceptional quality of starry nights and nocturnal environment.” Because Antelope Island is only minutes from one of the most heavily populated areas of Utah, it is ideally suited to offer incredible dark sky opportunities to thousands each year.

Stay and Play
Antelope Island State Park offers primitive campsites for those wishing to spend the night. For camping reservations call 1-800-322-3770 or visit antelopeisland.utah.gov

Dark Sky Activities

Dark Sky Photography
A growing number of photographers are discovering night sky photography at Antelope Island State Park. Prime areas for this include Ladyfinger Point, Buffalo Point, Bridger Bay Beach and White Rock Bay.

Star Parties
When was the last time you looked up at the night sky and marveled at its beauty? During summer star parties offered by the Ogden Astronomical Society, visitors can experience beautiful deep space wonders including the expanse of the Milky Way, Orion’s Nebula, star clusters and even distant galaxies.

Astronomy Programs
Throughout the year, park staff offers public astronomy programs incorporating indoor discussions and outdoor night sky observations. Learn to recognize constellations such as the Pleiades, Leo the Lion, Orion the Hunter, as well as planets, distant stars and meteors.

Star-gazing
Bring your family and spend the evening gazing at the night sky. See stars like never before, away from the glow of city lights.

Preserving Dark Skies
As an International Dark Sky Park, Antelope Island State Park takes important steps to help protect our valuable and often overlooked natural resources. Not only are dark skies important for night sky activities, but natural darkness is also critical for wildlife and human health.

What are the benefits of darker skies?
• Better night vision and safety
• Safe nesting areas which attract birds
• Brilliant views of stars and the Milky Way

Directions
Antelope Island State Park is located approximately 41 miles north of Salt Lake City. Take Exit 332 off Interstate 15, then drive west on Antelope Drive to the park entrance gate.

Antelope Island State Park entrance fees and hours vary. Contact the park for more information or visit antelopeisland.utah.gov for updated fees and operating hours.
